Mrs. Smith is one of the oldest settlers of this community, and is much loved by all who know her. She was the recipient of many useful presents. Each family brought well filled baskets and at 8 o'clock they were invited to the dining room, where they did full justice to the many good things, which consisted of chicken roasted and fried, chicken pie, roast pork, baked beans, macaroni, breads, pickles, salads, pies, custards and cakes. Signs of winter are approaching. To some it is pleasant but to me it fills my heart with sadness to think of the trees losing their beautiful foliage. I shall try and console myself with the poet's words, "We would not the blossoms if every month were May."

The picnic given at Mr. J. W. Webb's farm Saturday was most enjoyable although not very largely attended. The young people played many very amusing games and had two large swings under the big oaks, which lent their charms to the pleasure of the day.

Cordey, L. W. Wilson, I. P. Stevens, T. E. Carraway, C. J. Smith and John T. Lewis. All pronounced the day a grand success.

The debate between Governor Broward and Mr. Beard was earnest. Broward was eagerly listened to, the question being a very vital one to all the people. Everyone seemed anxious to hear the facts in the case. Each speaker handled his side of the subject well and from all points, from the expressions that we heard the governor captured the crowd or at any rate a large majority. The day was certainly a grand one and our people will long remember the courtesies extended to them by the good people of Ocala. We are all glad we were there.

## THE FLORIDA FEMALE COLLEGE NOTES.

Tallahassee, Oct. 23, 1906.

To the Editor Ocala Banner:

The Florida Female college opened this year with a fine enrollment. About thirty-five counties are represented, and one hundred and thirty-five students answer daily to the chapel roll call.

The college this year is able to offer four scholarships of \$100 value each. These are designed for deserving and well qualified young women who would otherwise be unable to attend college. These scholarships defray all expenses except those of books, clothing and laundry, and are offered through the generosity of the board of control and the state board of education, the citizens of Tallahassee and the members of the faculty. For further information apply to Prof. Arthur Williams, Tallahassee, Fla.

All departments of the college are fully equipped for the best work and especial advantages are offered in music and art.

A fine Lyon and Healy pipe organ has been placed in the chapel, and instruction is offered by Miss Foster, one of the finest organists in the south. The organ greatly improves the appearance of the chapel and adds to the impressiveness of the beautiful chapel service.

The literary societies are in a very flourishing condition and are doing fine work. The Thalian Literary society now numbers sixty members.

The college paper, "The Tallisman," will be issued soon, and the students are looking forward with interest to the first number of the term.

The Lyric club will resume its work next Wednesday. The cantata, Tennyson's "Sleeping Beauty," will be staged.

A series of concerts will be given by the music department this year. Voice, piano and organ selections will be given. A large attendance of the Tallahassee people is hoped for.

Vesper services are held once a chapel. Pres. Murphree presides over these services and music is furnished by the faculty quartette. These services are greatly enjoyed by students and citizens of Tallahassee.

Orders will be issued in a few days for the withdrawal of all but 500 of the marians now in Cuba. They will be released by additional levies of troops drawn from this country until the total force in Cuba numbers about 7,000. Brig. Gen. Bell, chief of staff, probably will be withdrawn from Cuba within a month or two. All of the warships in Cuban waters except two or three of the small cruisers are to be ordered away at once.

Senator Bailey denies that he is the attorney for any monopoly and points to his record in congress as proving ample defense from any accusations of that character. Senator Bailey says: "I believe—and I believe it as firmly as my Christian wife believes in her religion—that the two great dangers threatening this republic today are the monopolies on this hand and socialism on that. Between these two monstrous and warring forces I have stood, resisting both with equal courage and equal resolution. Drive me from the senate because I am subject to corporate influence? My countrymen, as God is my judge, I believe I speak but the simple truth when I declare that corporations of this land would rather drive me out of the senate than any other man in that body. Who fought with unflinching zeal and unyielding courage the great battle of the people on the rate bill?"

## "CARPETBAGGERS" BLAMED.

Negroes Ask Roosevelt to Break Up Republican Office Holding in the South.

New York, Oct. 24.—President Roosevelt has been appealed to by members of a newly organized body negroes of this city to use his influence to assist to better the condition of the negroes of the south by disbanding the republican organizations in that section of the country.

The leaders, who say their work is a "new emancipation movement," the leader of which is John B. Sypos, a negro who was a member of the Virginia legislature during reconstruction days, declares that politics is responsible for all of the troubles of the negroes of the south, and say that the carpet-bag politicians and the white republicans are the worst enemies of the race.

The appeal declares that the only object of the republican organizations in the south is to obtain for certain white men and a few negro agitators all the federal patronage that a friendly president will give, and that even states where no republican candidate could hope to get one tenth of the vote the republican organizations are maintained for the sole purpose of obtaining patronage.

In a statement issued by the organization is the following: "The negroes back of the movement think it high time the negro should protest against being exploited for the private gain of a small class of office holders. The promoters hope to destroy the antagonism that was created in times of reconstruction, and establish conditions under which the two races may live together in peace and mutual helpfulness."

In the appeal sent to the president and the governor of every southern state it is stated that the troubles of the negroes of the south were caused by the formation of the negroes after the war into "Loyal Leagues" and "Republican Party" organizations, as weapons against the whites of that section. This has proved a curse instead of a blessing to the negroes. Another fatal error forced upon the negroes from pulpits to corn fields is, the address states, that a Jefferson democrat is less friendly to the interests of the negroes than a Lincoln republican. The address concludes as follows:

"When the day shall come that we are no longer used by the white men as mere human ammunition with which to fight our neighbors, then, and only then, can we consistently go to Jamestown, Va., and on bended knees ask our God to help the white men keep sacred the covenant that He made with the founders of the nation."
